

AGENDA

COVERED ELECTRONIC WASTE (CEW) STAKEHOLDER WORKSHOP

FOCUS ON POTENTIAL REGULATORY CHANGES REGARDING DESIGNATED APPROVED COLLECTORS

Thursday, March 13, 2014

1:00 p.m. – 4:00 p.m.

Coastal Hearing Room Cal/EPA Headquarters Building

1001 I Street, Sacramento

The focus of the workshop will be concepts and possible regulatory changes within the covered electronic waste (CEW) program relating to designated approved collectors. This will be a continuation of discussions that took place at a stakeholder workshop in June 2013.

Designated approved collectors are currently afforded reduced source documentation requirements when operating on behalf of the designating local government. This potentially allows for a wider range of CEW collection activities, but it also creates vulnerabilities in the CEW recycling payment system. To improve and protect the integrity of the designated approved collector provision, a variety of regulatory adjustments are under consideration including advance notification to the State, clarity on designating authorities and legal arrangements, limitations on scope of activities, and connections to the annual Form 303 household hazardous waste reporting.

The format for the workshop will feature CalRecycle staff providing an overview of the workshop topic and a recap of related issues. This will be followed by staff facilitated open discussion. The workshop will allow stakeholders to comment, question, and discuss the rationale and possible evolution of the CEW recycling payment system.
